**Pro Wrestling Gets a Dose of Gay**  
**Pride Pro Wrestling**

It's no secret that wrestling is kind of gay, yet professional wrestling organizations such as WWE (formerly WWF) have countered this homoeroticism with a heaping spoonful of homophobia. And my girl Mary Poppins could tell you--that crap does not help the medicine go down.

If you're not a big fan of the gay-baiting on pro-wrestling programs but enjoy certain aspects like men rolling around with one another and theatrical antics, maybe you should check out Pride Pro Wrestling. All of their wrestlers are openly gay individuals, and the organization looks to put a positive spin on homosexuality in wrestling.

I still think they may have a long way to go, but I like what they're doing! Additionally, it's great to see that men of all body types are represented within their roster, from the smooth muscular Wulfgar (pictured above) to the Woof Alert-worthy Eddie Valentine.

Let's hope that the founders eventually achieve their dreams of having their matches nationally broadcasted. Paging LOGO and here! TV... this could seriously be the next RuPaul's Drag Race or Dante's Cove.
